

PUBLIC LEDGER

FOURTH YEAR.

MAYSVILLE, KY., FRIDAY, JANUARY 4, 1895.

ONE CENT.

Purely Business!

The columns of a newspaper represent a public service. No publisher can afford to give advertising "coupons" free any more than a merchant can afford to give away his goods or shoes. A newspaper is a legitimate business, and its expenses are its stock in trade, and advertisements should be paid for, just as wine part of the paper they appear.

The Continued Call

Upon the letters for free notices, he has become so burdened that we are forced to publish the following:

For Notice of Sales.

Specimens, fairs, or other public entertainments where a fee is charged, and for advertising, etc., see THE LEDGER will charge FIVE CENTS A LINE, and hereafter this rate of the incredible rate. This, however,

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The cost of a letter to the editor of a newspaper is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. This is a five-line local inserted in the paper.

And when I am asked, "What do you say to the bookkeeper? He has got all about it." The mother runs off to the editor, who says, "The bill is \$12.50. When he finds it out there is probably an icy feeling. Now, to have a definite agreement at the outset, the avoidance of disputes will be pleasant all around."

All matter for publication must be handed in before 9 o'clock in the morning of each day.

FORUM ADVERTISING.

I've bought a country printing shop.

And started in to run it;

I've conquered many troubous illa.

Since when I first began it;

But now I'm in the saddle and know me out.

In all its might uprising;

And that's the horrid, grinning freak.

Called Foreign Advertising.

Ans as far as you concern these tears—

Then send me your bill of fare;

And when I've printed them "ad,"

And had them delivered;

Tell me they their "push" was wrong.

And send me a full dollar.

Sometimes the sheet of "out" I view;

And sigh and faintly shiver,

And think I'll take the whole layout

And throw 'em in the river.

And then I take a look at the paper,

And see no man plan deviating.

To beat these nimble dicks who run the Foreign Advertising.

This is my annual report to you. I deem it my duty, as well as the privilege, to render a report of the affairs of the city so far as they have come under my official

With the new Constitution and charter, the new city government comes into existence, together with the new system of ordinances enacted and in force in the city, it would be next to impossible to meet all the requirements.

AMERICA FOR AMERICANS AND AMERICANS

MCKINLEY AND WILSON ABROAD,

In 1850 William McKinley was born in the English town of Shefford, but in 1854 William L. Wilson was born and died in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

The defalcations in the United States for the year 1892 amounted to \$882,547. This was under Republican rule in this country. In 1893, the first year of Democracy, the sum reached \$10,929,692, and in 1894 it was \$25,234,12. Now who says Free-trade isn't a good thing for thieves?

As far as the State Treasury, we doubt whether any one will ever be able to keep plenty of money in it, as long as so many of the Republican counties draw more money out of it than they pay into it.—*Bulletin*.

Yea! we'd almost forgotten it. The Republican county of Dan TATE did make quite a draw from the Democratic State Treasury.

DISCOVERED AT LAST.

New York Press.
Chicago boasts a man who robs, writes and talks back. He is evidently the real author of the Administration's current bill.

PREMIUM ON POLITENESS.

Boston Herald.
Out in Milwaukee they are talking of reducing the premium on politeness to the man in the family of three who have to stand up in the cars three cents. This would be putting a premium on politeness. Everybody would feel disposed to rise and give the lady her seat.

THE PEOPLE'S BANK.
St. Louis Globe-Democrat.
According to the report of the Committee of the People's Bank building and loans in the country, with 1,257,442 shareholders and \$28,802,885 of assets, there are thousands of miles of railroad that do not eat the cost of maintenance, leave alone the cost of construction, for a year or two years to develop itself to growing up to the railroads it has, might be, for its profit.

NOT PUSHING HIM.

St. Louis Globe-Democrat.
"Come, William, give something," said the deacon.

"We're too drunk," said Bill.

"Why not? isn't the cause a good one?"

"Yes, good 'nuf, but I ain't able to give nothing."

"Well, you're a brother, you know."

"Well, Bill, you owe this a large debt than anyone else."

"That's true, but he ain't pushin' me like the rest of my creditors."

THE WORLD'S DECISIVE BATTLES.

According to Professor Creasy the decisive battles of history were:

The electric thrill of health

is never felt by those who are run down—out of sorts—poor in blood—badly nourished—dyspeptic. That would be impossible, and so the delight of living is lost!

Brown's Iron Bitters

brings weak people up to the standard of health—sets the blood—acts on the nerves—strengthens the muscles. It brings the blush of youth to the face—restores and renewes life in the aged—nourishes the weak, puny child—briefly said, it gives strength, and strength comes with health and perfect health. It is a necessity in every family. It does not injure the teeth or cause constipation.

It's Brown's Iron Bitters you need!

NOVEL PLAN.

How the Mayor of Minneapolis Reduced the Jay Business.

Major Eustis of Minneapolis closes his administration with assurance that his new policy has reduced the number of arrests for drunkenness 35 per cent.

The decrease for the year 1894 was probably greater than 50 per cent. last year the preceding administration, and each month for fifteen months has shown the same ratio of decrease, as compared with the corresponding month of the preceding year.

His policy was to treat saloon keepers as business men who had some rights. He allowed them to keep open on Sunday and reasonably late night, and did not disturb any places regarding which complaints were not made.

But he kept a record showing where every drunken man arrested secured his liquor, and one warning was generally enough to the saloon keeper to let him drink no more again.

Besides this, upon a report that a man had lost money in caving in any place, or that any poor man had spent more money than he ought in any saloon, the Mayor called the proprietor of the offending saloon before him and made him refund the money, warning him that a second complaint would lose his license.

Thus he succeeded in making all of the reputable saloon men his allies, and for the year 1894 the total arrests for drunkenness were 1,014, as against 2,356 for the year before Mayor Eustis took hold of the reins.

The proper thing while caving in a saloon is to make sure that the man who is buying the drink is not a drunkard.

Evidently this, upon a report that a man had lost money in caving in any place, or that any poor man had spent more money than he ought in any saloon, the Mayor called the proprietor of the offending saloon before him and made him refund the money, warning him that a second complaint would lose his license.
